DHANANJAY SANJAY SHAHANE

COMMUNICATION ADDRESS: CHATRAPATI SAMBHAJI NAGAR, MAHARASHTRA PINCODE: 431001

Mo. NO: 7350736478 | **Mail ID:** dhananjayshahane24@gmail.com | Portfolio | LinkedIn

SUMMARY

Full-Stack & Mobile Software Engineer with 3+ years of experience across the full Software Development Life Cycle (SDLC). Specialized in building scalable web applications, cross-platform mobile apps (Android/iOS), and high-throughput RESTful APIs using React.js, Next.js, TypeScript, Node.js, Python (FastAPI/Flask), Flutter, and PostgreSQL. Expert in Agile Methodologies, Version Control (Git), CI/CD pipeline automation, Core Web Vitals performance optimization, and cross-functional collaboration to deliver high-impact enterprise solutions.

EDUCATION QUALIFICATION

Qualification	School/College	University/Board	Passing Year
Bachelor of Computer Science (BCS)	Dr. Babasaheb Ambedkar Marathwada University	Aurangabad, Maharashtra	2019 – 2022

SKILLS

- **Frontend & Architecture:** React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5/CSS3, Performance Optimization, Core Web Vitals, Responsive UI/UX Design.
- **Backend & API Engineering:** Node.js, Python (FastAPI, Flask), RESTful APIs, Microservices Architecture, API Integration, JWT Authentication, Scalability.
- **Databases & Cloud Infrastructure:** PostgreSQL, Database Schema Design, Firebase Firestore, Linux Server Administration, Nginx, Vercel Deployment.
- **Mobile & DevOps SDLC:** Flutter, Dart, Riverpod, Android Development, CI/CD Pipelines, GitHub Actions, Version Control (Git), Agile Methodologies, Cross-Functional Collaboration.
- **AI & Modern Tools:** AI , Claude Code, OpenAI Codex, Antigravity, MCP, AI Rag.

WORK EXPERIENCE

- **Software Engineer (Contract / Part-Time),** ARRTECH Apps and Data Solutions LLP, Mumbai, India (Remote) – *Jul 2026 - Aug 2026*
  - Led full Software Development Life Cycle (SDLC) engineering and automated CI/CD deployment pipelines for scalable web and mobile applications using Agile Methodologies across cross-functional teams.
  - Architected high-throughput RESTful APIs, optimized database schemas for performance optimization and latency reduction, and enforced Git version control workflows. Tech Stack: Flutter, React, Next.js, Node.js, Firebase, CI/CD, Git.
  - Key Projects:
    - Ontime Trading App: High-frequency fintech platform featuring real-time stock updates, portfolio management, and low-latency streams.
    - Highway Drivers: Driver booking app with live GPS tracking, automated fare calculation, and payment gateway API integration.
    - Yarns & Knots: Textile e-commerce platform with product filtering, secure checkout, and dynamic inventory management.
    - ARRTECH Consultancy Website: High-performance corporate site optimized for Core Web Vitals and dynamic lead generation.

- **Full-Stack Developer,** Nestcraft Design, Mumbai, India (Remote) – *Jun 2025 - Jul 2026*
  - Architected scalable web applications and client portals in an Agile Development environment, managing end-to-end SDLC using React.js, Next.js, TypeScript, and Python.
  - Engineered JWT authentication, server-side caching, and responsive UI components focused on performance optimization and Core Web Vitals enhancement. Tech Stack: React.js, Next.js, TypeScript, Python, FastAPI, PostgreSQL, Tailwind CSS.
  - Key Projects:
    - WorkBitz-AI: Corporate platform presenting consulting solutions with responsive semantic UI components.
    - Poshakdhara: Apparel e-commerce store with dynamic inventory queries, payment processing, and wishlist management.
    - Smile Care Clinic: Dental booking portal featuring online scheduling, automated SMS reminders, and patient tracking.
    - Devdut Ayurved Clinic: Healthcare platform providing consultation booking and interactive product catalog navigation.
    - **Petrophysics App**: Web application for geological data visualization and real-time well log calculations.
- **Frontend & Web Developer,** BR Tech Solutions Private Limited, Delhi, India (Remote) – *Nov 2023 - May 2025*
  - Driven cross-functional collaboration in agile sprint teams to develop high-performance web applications and ERP modules using HTML5, CSS3, JavaScript, and Tailwind CSS.
  - Executed seamless API integration for automated workflows, implemented version control standard practices, and managed Linux CI/CD deployments. Tech Stack: JavaScript (ES6+), RESTful APIs, Linux, Git, CI/CD.
  - Key Projects:
    - Swara Cake Ecommerce Web App: Bakery web app featuring custom ordering, real-time pricing, and automated order notifications.
    - MedBRT Hospital ERP System : Hospital management solution for patient registration, billing, and doctor schedules.
- **Associate Frontend Developer,** Infraveo Technologies, Ahmedabad, India (Office) – *Sep 2022 - Aug 2023*
  - Engaged in full SDLC web development using JavaScript, Bootstrap, and WordPress in agile team settings, fostering cross-functional collaboration and mentoring junior developers on code quality standards. Tech Stack: JavaScript, jQuery, Bootstrap, WordPress, SEO.
- **Frontend Developer (Internship + Training),** Infraveo Technologies, Ahmedabad, India (Office) – *Sep 2022 - Dec 2022*
  - Began career as an Intern at Infraveo Technologies, gaining hands-on experience in web development agency workflows and collaborative client project delivery under senior mentorship. Tech Stack: HTML5, CSS3, JavaScript (ES6+), jQuery, Bootstrap, WordPress, SEO, Figma.
  - Key Projects:
    - IDSID Consultancy Website: Corporate platform presenting consulting solutions with responsive semantic UI components.
    - CSD10 Security Solutions: Security services application with inquiry forms and location mapping integration.
    - BlessTech Consultancy: IT consultancy landing portal crafted for high lead generation featuring responsive layouts.
    - **Printed Panda**: Custom printing e-commerce storefront supporting live design previews and online orders.
    - Dhanraj Chikki: Brand portal for food products showcasing catalog and store inquiries with SEO-optimized layouts.

CERTIFICATIONS

- **Full Stack UI Developer,** Naresh IT Technologies, Hyderabad, India – *Jan 2022 - Jun 2022*
